AÇIKLAMALAR

Bu çalışma, Devlet Planlama Teşkilatı (DPT), Ekonomik Modeller ve Stratejik Araştırmalar Genel Müdürlüğü'nce uluslararası ekonomik gelişmeleri takip etmek amacıyla yıllık olarak hazırlanmaktadır.

Çalışmada, AB ülkeleri, bir kısım AB dışı OECD ülkeleri, komşu ülkeler ve ülkemizle karşılaştırmalarda özellik arz eden bazı gelişmekte olan ülkelere müteşekkil toplam - Türkiye dahil - 56 ülke temel alınmıştır. Söz konusu ülkeler; "Gelişmiş Ekonomiler" ve "Yükselen ve Gelişmekte Olan Ülkeler" olarak iki ana grupta toplanmıştır. Avrupa Birliği'ne yeni üye olan 12 ülke tablolara dahil edilmiştir.

Ülkelerin ekonomik göstergelerinin zaman içinde gelişme seyrinin izlenebilmesi açısından veriler, 1980, 1990 ve 1999-2007 aralığını kapsamaktadır. Sırası ile nüfus, milli gelir, para, dış ticaret, dış borç, iş gücü piyasası ve uluslararası kuruluşların tahmin göstergeleri ve ek tablolar çalışmanın ana başlıklarını teşkil eden konulardır.

Çalışmada bazı göstergelere göre dünyanın önde gelen ülkelerine ayrıca yer verilmiştir.

IMF'nin "International Financial Statistics" ve "World Economic Outlook"; Dünya Bankası'nın "World Development Report", "Global Development Finance" ve "The World Development Indicators" yayınlarının ülke raporları faydalanılan başlıca kaynaklardır.

Göstergelerin herhangi bir ülke (ülkeler grubu) ile ilgisi veya anlamlılığının bulunmadığı durumlarda, ilgili satır (bölüm) tamamen boş bırakılmıştır (çıkarılmıştır). Veri bulunmadığı hallerde ise, "..." (üç nokta) ile işaretlenmiştir. Eğer bulunan veri çok küçük veya sıfıra yakınsa bu kısım "0" (sıfır) ile gösterilmiştir. Virgöl (,) ondalık kısmı ifade etmektedir.

EXPLANATIONS

The main purpose of this publication is to provide an up-to-date general overview of annual economic trends in some selected countries of the world and it is prepared by the General Directorate of Economic Modelling and Strategic Research, State Planning Organization (SPO).

Data are classified on the basis of economic groupings of countries as "Advanced Economies" and, "Emerging and Developing Countries". 12 new members of the European Countries are included to all tables.

The study contains 56 countries including EU and some major OECD countries, neighboring countries of Turkey and some selected developing countries which have interesting characteristics.

The range of period covers 1980, 1990 and 1998-2007 to allow comparative analysis of economic development and general trends at the world and national levels.

Data in the tables fall into the following broad areas: population, national accounts, money, external trade, external debt and labour market and projections of the international organizations.

The main sources used in the preparation of this study were the IMF's "International Financial Statistics" and "World Economic Outlook"; The World Bank's "World Development Report" and "Global Development Finance" and "The World Development Indicators".

The statistics for Turkey have been drawn from the SPO's Annual Programs .

When the indicators are not relevant or related for a country (group of countries), that line (section) has been left blank (dropped). The symbol, "...", indicates that datum is not available. "0.0" indicates a zero or a close to zero value. In parallel with the Turkish setting, a comma (,) is used to indicate decimal.
