RESOLUTIONS OF THE OIC FORMING
THE BASIS AND GUIDING THE ACTIVITIES
OF THE STANDING COMMITTEE FOR ECONOMIC
AND COMMERCIAL COOPERATION OF THE OIC
RESOLUTION ADOPTED AT THE THIRD ISLAMIC SUMMIT CONFERENCE ESTABLISHING THE STANDING COMMITTEES OF THE OIC CHAIRED BY HEADS OF STATE

Resolution No. 13/3-P (IS)

The Third Islamic Summit Conference (Palestine and Al-Quds Session), meeting in Mecca Al-Mukarramah, Kingdom of Saudi Arabia, from 19th to 22nd Rabi-Al-Awal, 1401 H. (25-28 January, 1981);

Having listened to the proposals by His Majesty King HASSAN II, Chairman of Al-Quds Committee, that three committees will be established and chaired by the Kings and Presidents of the Islamic States,

Proceeding from a firm belief that joint Islamic action needs to be consolidated in the scientific and technological field, and in the economic and trade sphere,

Prompted by the desire to give information and culture a fresh impetus to help world public opinion understand the basic issues of the Islamic nations, particularly those of Al-Quds and Palestine, and to confront the tendentious campaign launched against Islam and Muslims,

DECIDES:

1. To establish three Standing Committees, the first for scientific and technological cooperation, the second for economic and trade cooperation, and the third for information and cultural affairs;

2. These Committees shall undertake to follow up implementation of the resolutions passed, or about to be passed, by the Islamic Conference in those fields; to study all possible means of strengthening cooperation among Muslim States in those fields, and to draw up programmes and submit proposals designed to increase the Islamic States' capacity in those fields;

3. Each Committee shall consist of the representatives of ten Islamic States, at ministerial level, and shall be chaired by the Head of State of an Islamic State;

4. Members of these Committees shall be elected by the Islamic Foreign Ministers' Conference for a renewable term of three years;

5. A Committee shall hold a meeting, if invited to do so by its Chairman or by a majority of its members; its meeting shall be valid if attended by a majority.
FINAL COMMUNIQUE
OF THE FOURTH ISLAMIC SUMMIT CONFERENCE
ENTRUSTING THE CHAIRMANSHIP OF THE STANDING COMMITTEE
FOR ECONOMIC AND COMMERCIAL COOPERATION TO
H.E. KENAN EVREN, PRESIDENT OF THE
REPUBLIC OF TURKEY

Final Communique No. IS/4-84/E/DEC

"... The Conference decided to entrust H.E. Mr. Kenan EVREN, President of the Republic of Turkey, with the Chairmanship of the Permanent Committee on Economic and Commercial Cooperation..." (Page 18, para 40).
129. The Conférence attached great importance to multi-modal connectivity to further advance economic coopération among OIC Member States. In this regard, it noted the recent developments on execution of the OIC Dakar-Port Sudan Railway project and encouraged OIC project owners and stakeholders to continue their efforts towards mobilizing technical and funding support for the successful implementation of this integrative project.

130. The Conférence commended the rôle of the Standing Committee for Economic and Commercial Coopération (COMCEC) under the chairmanship of the Président of the Republic of Turkey in contributing to the realization of OIC objectives in the economic domain.

131. The Conférence expressed its profound appréciation for the successful implementation of the COMCEC revised statute and strategy adopted at the 4th Extraordinary Summit. It called on Member States to enhance the implementation of the revised COMCEC statute and strategy, in close coordination and coopération with the General Secrétariat and in accordance with the OIC Charter, and requested Member States to continue to actively participate in the work of the COMCEC under the chairmanship of H.E. Recep Tayyip Erdogan, Président of the Republic of Turkey.

9. His Excellency ERDOĞAN underlined the importance of learning crucial lessons from the pandemic by expressing that all humanity shares the same destiny regardless of religion, language and race. Emphasizing the significance of being planned and prepared for crisis management, His Excellency ERDOĞAN stressed the need for acting together as the member countries of the Organization of Islamic Cooperation.

10. H.E. ERDOĞAN drew attention to this year's theme of promoting entrepreneurship and competitiveness for tourism industry by noting that tourism is a sector heavily affected by the pandemic. H.E. ERDOĞAN continued his statement by stressing the role of trade facilitation in mitigation of negative economic effects of the COVID-19 pandemic. In this context, expressing his appreciation for the recent steps taken for the implementation of Trade Preferential System (TPS-OIC), H.E. ERDOĞAN highlighted that the Trade Negotiating Committee Meeting, which is proposed to be held in 2021, will be an important step for the effectuation of the System. Furthermore, H.E. ERDOĞAN stated that the OIC Arbitration Center would be operationalized soon after the completion of its institutional structure.

11. H.E. ERDOĞAN also invited the Islamic Chamber of Commerce, Industry and Agriculture to cooperate more closely with the Standards and Metrology Institute of Islamic Countries in the fields of halal food standardization and certification.

12. H.E. ERDOĞAN continued his statement by stressing the importance of fighting against Islamophobia and xenophobia in western countries and stated that this would only be achieved through stronger cooperation among the Islamic Countries. H.E. ERDOĞAN also underlined that strengthening our economic structures would also be effectual in having a louder voice in international platform on this crucial issue as well.

13. H.E. ERDOĞAN expressed his gratitude for the convening of the COMCEC Working Group Meetings regularly and to all member countries that took part in these meetings. H.E. ERDOĞAN underlined the importance of the recently initiated COMCEC COVID-19 Intervention Program for supporting the member countries in overcoming the negative economic effects of the COVID-19 pandemic. His Excellency ERDOĞAN also highlighted the importance of the COMCEC Al-Quds Program for improving the socio-economic conditions of Al-Quds as one of the most important holy cities of the Islamic World.

14. While concluding his speech, H.E. ERDOĞAN expressed his wishes the Session will be beneficial for the member countries and the Islamic World.

(A copy of the text of the Inaugural Statement of H.E. Recep Tayyip ERDOĞAN is attached as Annex II.)
15. Following the Inaugural Statement made by H.E. ERDOĞAN, the Secretary General of the OIC made a statement.

16. His Excellency Dr. Yousef Al-OTHAIMEEN, the Secretary General of the OIC, thanked the Government of the Republic of Turkey for excellent preparations made for this virtual meeting. H.E. Al-OTHAIMEEN stated that the negative economic impacts of COVID-19 pandemic on trade of goods, services, transport and global tourism, will further lead to an increase in unemployment levels and poverty in the member countries of the OIC.

17. In this framework, H.E. Al-OTHAIMEEN stressed that OIC has mobilized all its resources and institutions in order to support its members in establishing national plans for mitigating the economic, financial and social effects of the pandemic. H.E. Al-OTHAIMEEN called upon the member countries having surplus of resources to share with the member countries in need so they would better face with the consequences of pandemic. In this respect, H.E. Al-OTHAIMEEN, underlined the significance of coordination, solidarity, complementarity and mutual support among the member countries. Al-OTHAIMEEN commended all the Member States that have continued to support the activities of the OIC, including the contribution to various OIC projects, hosting of OIC several events, signing and ratification of the OIC agreements in the economic domain.

18. The Heads of Delegations of Kuwait, Nigeria and Bangladesh made statements on behalf of Arab, African and Asian Geographical Groups of the OIC regions during the Opening Ceremony. They expressed their gratitude for the excellent preparations for the virtual meeting and extended their condolences for the victims of the devastating earthquake in Izmir. Highlighting the importance of Tourism sector in terms of its direct links to other sectors such as transportation, food, accommodation and finance, the Head of Delegation of Kuwait emphasized, among others, the urgent need for finding solutions to the difficulties emanating from the pandemic and the recovery from its damage. The Head of Delegation of Nigeria, after mentioning how COVID 19 pandemic slowed down the economic growth of OIC, stressed the necessity of exploring ways and means to increase social entrepreneurship for the growth in tourism sector and welcomed the efforts towards making Africa the most preferred tourism destination. The Head of Delegation of Bangladesh also mentioned the negative effects of COVID 19 on economy and the policy measures taken for mitigation negative effects of pandemic in Bangladesh and underlined the support given by Bangladesh to the main OIC projects such as TPS-OIC. He also underlined that the member countries may enhance their cooperation in the field of Information Technologies (IT).

19. Furthermore, Mikayil JABBAROV, Minister of Economy of the Republic of Azerbaijan, delivered a statement in the opening ceremony. H.E. JABBAROV highlighted the importance and the support they attach to economic cooperation among OIC member states. H.E. JABBAROV also emphasized the significance
of the political solidarity among Islamic countries. In this respect, H.E. JABBAROV expressed his special thanks to Turkey, Pakistan and Afghanistan and other Islamic countries for the support extended to Azerbaijan recently on Karabagh issue.

20. H.E. Dr. Bandar M. H. HAJJAR, President of the Islamic Development Bank (IDB) Group also delivered a statement at the Opening Session. H.E. Dr. HAJJAR expressed his thanks and appreciation to the Member Countries for their continuing support to the activities of the IDB Group. H.E. Dr. HAJJAR, in his statement, mentioned the efforts of IsDB group in the fields of value chains, digital platforms, and the supports provided for financing health sector and SMEs for job creation during and post Pandemic environment.

21. Mr. Rifat HİSARCİKLIOĞLU, President of the Union of Chambers and Commodity Exchanges of Turkey (TOBB) and the Vice-President of the Islamic Chamber of Commerce, Industry and Agriculture (ICCIA) also made a speech at the Opening Session. Mr. HİSARCİKLIOĞLU stressed the importance of solidarity and cooperation among the Islamic countries and expressed that one of the best ways to boost the solidarity and cooperation is to increase trade among the OIC member states. Mr. HİSARCİKLIOĞLU stated that TOBB, in collaboration with ICCIA, is undertaking the final preparations for making the OIC Arbitration Center operational soon, which would contribute to enhancement of the intra-OIC trade and investments. Mr. HİSARCİKLIOĞLU also stressed that visa issues continue to be a problem and invited the member states to ease the visa procedures for business people.

**Ministerial Working and Closing Session**

22. The Ministerial Working and Closing Session of the Thirty-Sixth Session of the COMCEC was held virtually on November 26th 2020, under the Chairmanship of H.E. Fuat OKTAY, Vice President of the Republic of Turkey.

23. Following the adoption of the agenda, Mr. Bilal Khan PASHA, Head of Delegation of Pakistan, as the Rapporteur of the Senior Officials Meeting (SOM), presented the summary of the outcomes of the deliberations during the SOM.

24. Afterwards, Mr. Fatih ÜNLÜ, Director General of COMCEC Coordination Office, made a presentation on the new “COMCEC Covid Response Program”. After briefly mentioning about the programs, projects and initiatives of the COMCEC and the relevant OIC Institutions during the COVID-19 Pandemic, Mr. ÜNLÜ presented the key aspects of the COMCEC COVID Response Programme launched in the purpose of assisting member states in their efforts to alleviate the negative effects of the COVID-19 Pandemic.

25. Mr. Jeff POOLE, Senior Vice President of The World Travel and Tourism Council, has delivered a keynote speech on the impact of COVID-19 on Travel
& Tourism Sector and the various ways of economic recovery. After providing some insights about the current situation in tourism and travel sector particularly on negative effects of pandemic on these sectors, Mr. POOLE elaborated on the private sector recommendations on promoting entrepreneurship in tourism sector.

26. Following the presentation of Mr. Jeff POOLE, the Exchange of Views Session of the 36th Session of the COMCEC was held with the theme of “Promoting Entrepreneurship for Tourism Industry Competitiveness”.

27. Within this framework, the Ministers and Heads of Delegations of the Member Countries made statements and interventions on their country experiences with regards to promoting entrepreneurship for tourism industry competitiveness in their respective countries. In this respect, they emphasized the crucial role of tourism industry in global and national economies since it is closely interlinked with the other sectors such as transportation and agriculture. They also underlined that some member countries are heavily dependent on tourism and suffered tremendously from the Pandemic. In the presentations, several crucial issues were also highlighted such as developing global tourism brands from the OIC region, supporting SMEs which are the backbone of the tourism sector, promoting tourism entrepreneurship, taking necessary precautions for compensating for loss of millions of job due to COVID Pandemic, adopting the tourism sector to new hygiene norms, new certifications and insurance schemes, disseminating digitalization and providing financial support programs to individual entrepreneurs, tax exemptions and credit support programs.

28. During the Closing Session, the Resolution OIC/COMCEC/36-.../RES. was adopted.

29. Afterwards, H.E. Khaled OSAILY, Minister of National Economy of Palestine made a statement on behalf of all participating states. H.E. Khaled OSAILY extended his gratitude to the OIC and CCO for the efforts towards the promotion of cooperation among the member states and for the success of the meeting despite the pandemic. H.E. Khaled OSAILY underlined the importance of electronic platforms and digitalization for the effective communication during the pandemic, and solidarity as well as cooperation for overcoming the negative effects of pandemic.

30. H.E. Fuat OKTAY, Vice President of the Republic of Turkey, delivered a closing statement. H.E. OKTAY underlined the importance of global food security by stating that 690 million people have lack of food and 130 million additional people are under the risk of being pushed to the edge of starvation by the end of the year 2020. H.E. OKTAY drew attention to the fact that these figures may worsen if the pandemic continues and stressed the importance of supporting the programs and projects launched by OIC institutions as a response to the negative repercussions of the Pandemic, including the COMCEC COVID Response Program.
31. H.E. OKTAY emphasized that tourism is one of the most heavily affected sectors from the pandemic and these effects would result in a decrease in global tourism volume up to 80%. H.E. OKTAY also highlighted that this pandemic, on the other hand, provides an opportunity for the member countries to revisit their structural problems in tourism sector, such as, limited investments, poor infrastructure, insufficient institutional and human capacity, low service quality and low per capita on tourist expenditures. H.E. OKTAY expressed that encouraging tourism entrepreneurship and building local entrepreneurship capacity are among the efficient ways to address the present and future challenges in tourism industry.

32. H.E. OKTAY underlined the role of trade cooperation for easing the negative effects of the challenging periods during the global economic uncertainties. In this context, H.E OKTAY stressed the importance of Trade Preferential System among OIC Member Countries (TPS-OIC) and OIC Arbitration Center as important instruments for increasing intra-OIC trade. H.E. OKTAY expressed his hope for the operationalization of the TPS-OIC soon. He also stressed that the operationalization of the OIC Arbitration Center would be an encouraging case point for the other endeavours in various cooperation areas.

33. H.E. OKTAY, by referring to the Palestinian cause as the basis of the establishment of the Organization of Islamic Cooperation, underlined the importance of having a common stance on the Palestine issue. In this context, H.E. OKTAY expressed his appreciation for the launch of COMCEC Al-Quds Program aiming to improve the socio-economic conditions in Palestine, in particular Al-Quds Al-Sharif.

34. H.E. Fuat OKTAY concluded his statement by expressing his thanks to all member country delegations, COMCEC Coordination Office, the General Secretariat of the Organization for Islamic Cooperation, the Institutions of the Organization for Islamic Cooperation and other international organizations for their active and valuable contributions.

(The text of the Closing Statement of H.E. Fuat OKTAY is attached as Annex III.)

35. All documents submitted to the 36th Session of COMCEC will be available on the COMCEC web site (www.comcec.org).

INAUGURAL ADDRESS BY H.E. RECEP TAYYİP ERDOĞAN,
PRESIDENT OF THE REPUBLIC OF TURKEY AND
CHAIRMAN OF THE COMCEC
AT THE OPENING SESSION
OF THE THIRTY SIX SESSION OF THE COMCEC
(25 NOVEMBER, 2020)

BİSMİLLAHİRRAHMANİRRAHİM.
IN THE NAME OF ALLAH, THE COMPASSIONATE, THE MERCIFUL

Dear Ministers,

Dear Brothers and Sisters,

May God's greetings, mercy and abundance be upon you.

It is my honor to greet you all as President of the Republic of Turkey and Chairman of COMCEC with my most heartfelt feelings of affection and respect.

I wish the 36th Ministerial Session of the Economic and Commercial Cooperation Standing Committee of the Organization of Islamic Cooperation to be beneficial for our region, our countries and the Islamic world.

Just as we have done every year, I truly wish we could host you in Istanbul this time.

However, as you know, we have had to conduct this meeting online due to the COVID-19 epidemic that has swept the entire world.

God willing, we can overcome this period with the least harm and hold subsequent meetings face-to-face.

I wish mercy from Allah upon those who have lost their lives in the epidemic and a speedy recovery to all our sick brothers and sisters as well.

I pray to Mawla to save us, the Islamic world and all humanity from this evil virus as soon as possible.

I also reminisce the late-Emir of Kuwait, Sheikh Sabah, the Chairman of the Islamic Chamber of Commerce, the late-Sheikh Salih Kamil, and the Deputy Secretary General of the Organization of Islamic Cooperation, the late-Ahmed Senyomo, whom have recently passed away.
The late Sheikh Sabah was a highly respected leader who influenced the whole region with his common sense, wisdom and conciliatory personality.

We will always remember with gratitude the contributions Sheikh Sabah made towards ensuring peace and prosperity in our geography.

We are people who believe that with every hardship comes convenience and with every adversity comes relief.

We view every event we experience as the means for both a test and an lesson.

There are lessons to be learned about the future for all of us in the difficulties we face with the Covid-19 outbreak.

First of all, this epidemic reminded us once again that all humanity shares the same destiny and is on the same ship, regardless of religion, language and race.

The epidemic has also shown how important it is to act in a planned manner and to strengthen our ability to cope with emergency interventions and crises by making the necessary investments on time.

I believe that we, as member countries of the Organization of Islamic Cooperation, should all plan our steps in the light of these facts.

In addition to the health dimension, we should mobilize our means to diminish the epidemic’s economic impact and to ensure there is a continuation of production and demand.

As you know, tourism is one of the sectors most affected by the epidemic.

In particular, we should strive to strengthen competition and entrepreneurship in our tourism industry, which is also the theme of this year's session.

We need to implement measures which encourage and facilitate trade so that our foreign trade does not suffer a heavy blow during the epidemic process.

I would like to emphasize the importance of the steps we shall take in order to increase trade between our member countries within the scope of COMCEC.

I appreciate the efforts made for the implementation of the Organization of Islamic Cooperation Preferential Trade System.

The Trade Negotiations Committee Ministerial Meeting, which we proposed to be held in the beginning of 2021, shall be a critical step for the system to come online.

We need to expedite the formation of the necessary boards in order for the Istanbul Arbitration Center to complete its institutional structure.

Another matter that we as an organization should focus sensibly on is halal food.

We have been continuing our halal food standards and certification activities for quite some time now.
However, despite all our efforts, we still have not been able to establish the coordination we desire between our countries.

I invite the Islamic Chamber of Commerce to undertake the necessary effort in cooperation with the Standards and Metrology Institute of Islamic Countries.

My esteemed brothers and sisters,

As Muslims, not only are we fighting a deadly epidemic this year, but we’re also struggling with Islamophobia which has recently raised its ugly head in western countries.

Businesses, homes, places of worship and schools belonging to our brothers and sisters living in these countries are exposed to neo-Nazi attacks nearly everyday.

Muslim women are subjected to insults or harassment on the streets, in the bazaars, on busses or on ferryboats because the wear headscarves.

While our holy values are violated under the cover of freedom of thought and the press, cruel attacks are carried out against the Prophet.

Today, unlawfulness against Muslims has become a common occurrence in many western states that have left democracy in the dust.

In fact, Islam and anti-Muslim hostility has turned into policy personally protected at the presidential level in some European countries.

To be honest, today’s Muslims face the same campaign of lynching and animosity against the Jews who lived in Europe before World War II.

Just like the European Jews of the 1940s, Muslims are excluded, marginalized and turned into ‘scapegoats’ by the media and politicians.

It is not only Muslims that bear the brunt of this hate spree, other segments with different ethnic identity, appearance, origins, languages and religions are also affected.

None of us have the luxury of staying silent in the face of these horrific circumstances.

Struggling against Islamophobia and xenophobia is a requirement of our obligation towards our brothers and sisters living in those lands.

We cannot sacrifice the rights and laws of our millions of people to the ambitions of incompetent politicians.

We cannot let the worries of newspaper sales of a racist media poison our future.

We have to fight within the scope of laws and democracy, using international platforms against cultural racism that surrounds the West like the plague.

Undoubtedly, the only way to do this is if we cooperate with each other.
That said, the more we produce as Islamic countries, the more we strengthen our economies, the more the weight of our words will come to bear.

For this, we need to concentrate on taking steps towards value added production and trade instead of an export structure based on raw materials or semi-finished products.

We should turn our savings into large investments in our own region and contribute towards putting our own people to words and developing our lands.

We must prepare our society, especially our youth, for the future world, the technical, economic and social conditions and technologies of the future.

I believe that the following truth has been realized by everyone lately.

In the world of the future, the current economic system based on "interest and domination" will be replaced by participation, where risk sharing is essential.

The widespread use of products such as non-interest bearing notes for financing large long-term infrastructure investments is important at this point.

We should also expedite particular tasks like trading with national currencies that will eliminate exchange rate pressure on our economies and commerce.

COMCEC offers us a unique platform for all these issues.

I appreciate that the COMCEC Working Group Meetings are held regularly.

I would like to express my gratitude to all member countries that participate in these studies.

As the President of COMCEC, I wrote a letter to all the heads of member states at the start of the coronavirus epidemic, expressing that we will come out of this troubled period even stronger than before.

In the process, I received very positive responses from many of my head-of-state brethren.

I wish the COMCEC Covid Response Program, which we started with your contributions, to be beneficial.

We in Turkey acted upon our calls for support and solidarity, transforming them into reality our assistance carried out in the field.

We have indiscriminately provided medical supplies and equipment to all countries and international organizations that have requested such assistance.

Until now, our aid has reached a total of 165 countries, 44 of which are Islamic countries, and nine international organizations.

My dear brothers and sisters,
Jerusalem is a blessed township entrusted to the ummah by the Prophet Nabi, who said, “If you cannot go and pray there, at least send oil to light the lamps of that place.”

The Palestinian cause is one of the building blocks that led to the founding of the Organization of Islamic Cooperation that brought us together in the first place.

We started up a new project within the scope of COMCEC to preserve Jerusalem.

With the COMCEC Jerusalem Program, we aim to improve to the best of our ability the socio-economic conditions of the people of Jerusalem by bolstering the local economy.

I believe that you, our member countries, will provide this program with the necessary support that will increase the welfare of our Palestinian brothers.

Our solidarity is crucial in this period when harassment against Jerusalem is on the rise and the occupying Israeli regime’s attacks intensify.

Undoubtedly, our unity, solidarity and effective cooperation will be the key to our success in the Palestinian cause and in all other fields.

May the Lord be our helper.

As I end my words with these thoughts, I wish that the consultations you shall conduct and the decisions you shall make at the 36th COMCEC Meeting will be beneficial for our countries.

While I greet you with respect, I now hand the session to my Assistant, Fuat Oktay, to continue the meeting.

SPEECH OF H.E. DR. YOUSEF BIN AHMAD AL-OTHAIMEEN,
SECRETARY GENERAL OF THE ORGANISATION
OF ISLAMIC COOPERATION (OIC)
AT THE 36th SESSION OF THE OIC STANDING COMMITTEE FOR
ECONOMIC AND COMMERCIAL COOPERATION (COMCEC)

Videoconference Format
(23-26 November 2020)

Your Excellency Mr. Recep Tayyip Erdogan, President of the Republic of Turkey and Chairman of COMCEC,
Honorable Ministers and Distinguished Heads of Delegation,
Ladies and Gentlemen,

Assalamu Alaikum wa Rahmatullahi wa Barakatihu

It is a great honour and privilege for me to address the 36th Session of the OIC Standing Committee for Economic and Commercial Cooperation (COMCEC), which is taking place via a virtual platform due to the Covid-19 Pandemic. I wish to express my sincere gratitude to His Excellency Recep Tayyip Erdogan, President of the Republic of Turkey and the chair of COMCEC, for supporting OIC activities and programs, especially in the economic domain. In the same vein, I wish also to thank the Government and people of the Republic of Turkey for the excellent arrangements made for the success of our today’s virtual meeting.

I would also like to take this opportunity to convey my heartfelt condolences to the President of the Republic of Turkey and to all the families of victims of the earthquake in Izmir as well as I wish a speedy recovery to all injured.

The 36th Session of COMCEC is holding in the midst of COVID-19 pandemic and we are facing severe challenges to overcome socio-economic and humanitarian crisis caused by the pandemic. Consequently, the global trade declined considerably due to the measures taken to prevent or to slow down the contamination of the COVID-19 and the global merchandise trade volumes declined by 14.3 percent in the second quarter of 2020 compared to the previous period.
In addition, businesses in service sectors are also seriously affected by lockdowns in various areas such as transport, travel, and tourism. The scenarios indicating that the potential shock would cause between a 60-80 percent decline in the international tourism in 2020 and rising unemployment also likely to worsen the risk of poverty in our countries.

In response to the pandemic, OIC Member States have taken strict measures to prevent the outbreak, to ensure the proper functioning of the healthcare system and protect the most vulnerable.

In this context, I wish to inform that the Extraordinary Meeting of the OIC Executive Committee at the Level of Foreign Ministers on the Consequences of the COVID-19 Pandemic was held virtually on 22 April 2020. The meeting called for global COVID-19 response efforts to continue in a spirit of solidarity, drawing on scientific research and large-scale coordination, while scaling-up national preparedness and response measures of prevention and alleviation of the devastating effects of the pandemic.

In this regard, the OIC has mobilized the full capacity of the Organisation and its institutions to support our countries in developing and implementing national plans to cope with the COVID-19 and to mobilize OIC-wide coordinated and coherent response to the pandemic and its adverse social, economic and financial impact on societies. It is in this context that I would like to commend the Islamic Development Bank (IsDB) Group for launching a US$2.3 billion Strategic Preparedness and Response Programme for COVID-19 pandemic, which is aimed at supporting our member states’ efforts to prevent, contain, mitigate and recover from the impact of the pandemic. In this context, I wish to thank the Government of the Republic of Turkey for the COMCEC COVID Response (CCR) Programme. The SESRIC, ICDT, ISF, IOFS, SMIIC and ICCIA have also implemented several projects and training and capacity building programmes on various aspects on economy for the benefit of our countries.

In addition, the OIC prioritized mobilization of resources to the needs of our Least Developed Countries (LDCs) in order to enable them to cope with the pandemic and facilitate economic recovery. In this regard, I would like to point out that I urged OIC countries with available excess sources to assist other OIC countries, especially the LDCs in order to enhance their capabilities to mitigate the socio-economic impact of the COVID-19. In this connection, the OIC General Secretariat and the Islamic Solidarity Fund (ISF) launched a joint Initiative to assist Member States to fight the pandemic. The ISF has provided US$ 1 million emergency assistance to Member States,
especially OIC LDCs. In this regard, the ISF also opened an account in order to receive donations from the Member States.

While stopping the pandemic and saving lives remain the priority for all of us, promoting solidarity, cooperation, complementary and mutual support among our Member States becomes more important than ever. Accordingly, OIC General Secretariat and its relevant institutions will continue to work closely with its Member States to further a collaborative response to the COVID-19 and facilitate economic recovery in our countries. I wish therefore to express my sincere appreciation to the relevant OIC institutions, which have continued to collaborate with the General Secretariat for the execution of the various projects under the socio-economic agenda of OIC.

**Your Excellency Mr President,**

**Excellencies,**

Before concluding, I wish to seize this opportunity to commend all our Member States that have continued to support the activities of the OIC, including the contribution to OIC various projects, hosting of OIC several events, signing and ratification of the OIC economic agreements. We are convinced that the partnerships, which we seek to consolidate in the relevant socio-economic fields, would benefit our Member States during the Pandemic, much as we also seek to continue to support the global efforts for a more stable sustainable development and a prosperous world.

I thank you for your kind attention, and I wish you all successful and fruitful deliberations.

*Wassalamu Alaikum wa Rahmatullahi wa Barakatuhu.*

REPORT OF THE 37th MEETING
OF THE SESSIONAL COMMITTEE
(November 16th, 2020, Virtual Meeting)

• The 37th Meeting of the Sessional Committee of the COMCEC was held on November 16th, 2020, in a virtual only-format, on the sidelines of the 36th Ministerial Session of the COMCEC.

• The Meeting was chaired by Mr. Fatih ÜNLÜ, Director General of the COMCEC Coordination Office. In addition to the COMCEC Coordination Office (CCO), the following OIC Institutions attended the Meeting:
  • Statistical, Economic and Social Research and Training Center for Islamic Countries (SESRIC)
  • Islamic Center for the Development of Trade (ICDT)
  • Islamic Development Bank (IsDB) Group
  • International Islamic Trade Finance Corporation (ITFC)-IsDB Group
  • Islamic Corporation for the Insurance of Investment and Export Credit (ICIEC) - IsDB Group
  • Islamic Corporation for the Development of Private Sector (ICD) - IsDB Group
  • Standards and Metrology Institute of Islamic Countries (SMIIC)
  • Islamic Chamber of Commerce and Industry and Agriculture (ICCIA)

• The Meeting agreed on the following agenda items for discussion:
  • Implementation of the COMCEC Strategy: Contributions of the OIC Institutions to the COMCEC Strategy
    • The List of Activities of the OIC Institutions Aligned with the COMCEC Strategy and COMCEC Ministerial Policy Recommendations
    • Utilizing COMCEC Project Funding for the implementation of COMCEC Ministerial Policy Recommendations
    • The e-platform (http://activities.comcec.org) established by the CCO for the activities of the OIC Institutions
  • OIC Institutions’ Efforts in combatting COVID-19 Pandemic
  • Possible Contributions of the OIC Institutions to the Implementation of the SDGs in OIC Member States
    • Preparations for Annual Report on the Progress Towards Achieving the Prioritized SDGs at the OIC level
    • Activities of the OIC Institutions Serving to the Implementation of the SDGs
• Implementation of the Economic Cooperation Section of the OIC-2025 Programme of Action
• The Proposal on the “OIC Business Intelligence Programme”
• Possible Contributions of the OIC Institutions for the Benefit of Palestinian People / Al-Quds Sharif as well as Geographically Distant OIC Member Countries and Observer Countries
• Any Other Business

Implementation of the COMCEC Strategy: Contributions of the OIC Institutions to the COMCEC Strategy

• Emphasizing the significance of the contributions of the OIC Institutions to the realization of the COMCEC Strategy and the COMCEC Ministerial Policy Recommendations, the Committee reviewed the completed and planned activities of the relevant OIC Institutions directly serving to the implementation of the COMCEC Ministerial Policy Recommendations (Group A activities) and activities serving to the objectives of COMCEC Strategy (Group B activities) for the period of December 2019-October 2020 as well as for the period November 2020-November 2021 based on the cooperation areas, namely trade, transport and communications, tourism, agriculture, poverty alleviation and financial cooperation.

(\textit{Group A and Group B activities are attached as Annex 1.})

• The Committee was informed by the CCO that in terms of Group A, 70 activities were reported as completed by the OIC Institutions. In terms of cooperation areas, approximately 40% of the activities were implemented in financial cooperation and trade domain followed by tourism. The Committee was also informed that with respect to types of the activities, the training and technical assistance programs are the commonly used activity types under Group A with more than 50 percent.

• In terms of Group B activities, CCO representative informed the Committee that 114 activities have been completed since the 35th Session of the COMCEC and 116 activities are planned to be organized in the upcoming period by the respective OIC Institutions. Most of the completed and planned activities were reported in the area of trade, followed by poverty alleviation. Furthermore, 14 research reports are planned to be prepared next year.

• The Committee underlined the importance of contributions of the OIC Institutions to the implementation of the COMCEC Ministerial Policy Recommendations as well as realization of the objectives of the COMCEC Strategy. In this respect, the Committee commended the efforts of SESRIC in contributing to the implementation of the COMCEC Ministerial Policy Recommendations through specifically designed activities such as capacity building and training programmes in the six cooperation areas. The Committee also appreciated the efforts of other OIC institutions for the
implementation of the policy recommendations and requested them to intensify their efforts and consider the possibility of organizing joint activities to that end.

• The CCO informed the Committee about the current developments regarding the projects supported by the COMCEC Coordination Office under the COMCEC Project Funding and also informed the participants that upon the request of project owners, most of the projects were postponed to 2021 for implementation. The Committee appreciated the efforts of the relevant OIC Institutions in submitting projects through the COMCEC Project Funding in the 8th project call made in September 2020. Moreover, the Committee invited the relevant OIC Institutions to utilize this mechanism more efficiently for the realization of the COMCEC Ministerial Policy Recommendations.

• Underlining the importance of the recently established e-platform (http://activities.comcec.org) in terms of simplifying and standardizing the reporting process, the Committee welcomed that as per decision of the previous Sessional Committee meeting, a training session on the said e-platform was organized by the CCO for the benefit of the OIC Institutions. The Committee commended the CCO for preparing a guideline including the essentials of the System. Furthermore, the Committee requested the OIC Institutions to continue reporting their activities through the said platform.

• The Committee took note with appreciation the proposal of the CCO to organize a special virtual consultative session with the participation of the concerned OIC Institutions to discuss the ways and means of enhancing the role of OIC institutions in effective implementation of the COMCEC Policy Recommendations.

OIC Institutions’ Efforts in combatting COVID-19 Pandemic

• The Committee was informed by the OIC Institutions about their activities / programs aiming to help member countries in their efforts towards mitigating the adverse effects of the COVID-19 Pandemic. The Committee commended the efforts of the OIC Institutions, particularly, among others, “the COMCEC COVID-19 Response Program” launched by the CCO and COVID-19 consultative meetings held virtually in three cooperation areas (Trade, Tourism, Agriculture); publication titled “Socio-Economic Impacts of Covid-19 Pandemic in OIC Member Countries,” and various training and capacity building programs conducted by SESRIC; “Strategic Preparedness and Response Program for the COVID-19 Pandemic” initiated by the IsDB Group; insurance coverage programme initiated by the ICIEC, the webinars on the impact of Covid-19 on intra-OIC trade and investment flows organized by the ICDT in collaboration with OIC and International Institutions; various activities (financing support, webinars, support for equipment and capacity development, harmonization of standards, etc.) undertaken by ITFC to assist Member Countries’ fight against COVID-
19 pandemic, platforms formed by ICCIA for disseminating information for the benefit of private sector in the OIC Member Countries.

Possible Contributions of the OIC Institutions to the Implementation of the SDGs in the OIC Member States

- The Committee was informed by the SESRIC of the preparations regarding the annual report on the progress at the OIC level towards achieving the prioritized SDGs as decided by Member States to be submitted to the 36th Ministerial Sessions of the COMCEC.

- The Committee was informed by the CCO that in line with the relevant resolution of the 35th COMCEC Session, “the List of Activities of the OIC Institutions Related to the SDGs for the period of 2020 and 2021” will be compiled by the CCO and submitted to the 36th COMCEC Session. Recalling the decision of the previous Sessional Committee Meeting, the Committee requested the SESRIC and CCO to consider the possibility of establishing an online platform to better follow-up of the SDG-related activities of the OIC Institutions.

Implementation of the Economic Cooperation Section of the OIC-2025 Programme of Action

- The importance of the contributions of the OIC Institutions to the implementation of the OIC-2025 Programme of Action was highlighted.

The Proposal on the “OIC Business Intelligence Programme”

- The Committee was informed by the ICIEC (IsDB Group) on the preparations towards the launching of “the OIC Business Intelligence Programme” initiative. The Committee noted the recent developments and efforts and requested the ICIEC in cooperation with SESRIC to finalize the technical preparations for the operationalization of the Program.

Possible Contributions of the OIC Institutions for the Benefit of Palestinian People/Al-Quds Sharif as well as Geographically Distant OIC Member Countries and Observer Countries

- The Committee was informed by the OIC Institutions regarding their activities, projects and existing and newly launched programs for the benefit of Palestinian people and Al-Quds Sharif and geographically distant OIC member countries such as Guyana and Suriname, and Observer Countries. The Committee appreciated the efforts of the
OIC Institutions and requested them to further enhance their possible contributions including the possible joint activities, projects, and programmes.

CLOSING STATEMENT BY H.E. MR. FUAT OKTAY,
VICE PRESIDENT OF THE REPUBLIC OF TURKEY,
AT THE CLOSING SESSION OF THE
36TH MINISTERIAL SESSION OF COMCEC
(26 November 2020, Virtual Meeting)

Esteemed Ministers,
Excellencies,
Dear Sisters and Brothers,

Essalamu Alaikum Wa Rahmatullahi Wa Barakatuh.

We have successfully concluded the 36th Session of COMCEC after fruitful discussions.

We have adopted a set of resolutions along with policy recommendations on the theme "Promoting Entrepreneurship for Tourism Industry Competitiveness”.

We are passing through a turbulent time due to the COVID-19 pandemic.

The pandemic has enormous negative impacts in almost every segment of life.

Global food security is no exception.

According to World Food Programme, 690 million people do not have enough to eat.

Nowadays, 130 million additional people are under the risk of being pushed to the edge of starvation.

The OIC member countries are not immune either. Cooperation and solidarity are the core principles to overcome this great challenge.

In this context, developing and implementing joint projects and programs are of particular importance.

Thus, we have launched COMCEC COVID-19 Response Program. This novel OIC programme would generate positive outcomes.

Distinguished Participants,

As we have discussed during the Exchange of Views Session, tourism is one of the most heavily affected sectors from the pandemic.
Tourism, with an annual average growth rate of 4-5% generates 8% of the global GDP and 10% of employment.

Yet by its nature, it is extremely vulnerable to crises such as natural disasters, epidemics, economic and political crises etc.

So far, past crises with few exceptions had only limited regional impacts. However, unlike its predecessors, Covid-19 pandemic has become a global crisis.

Covid-19 is estimated to have a seven times larger impact on tourism than the Financial Crisis of 2008.

It probably will take time to recover the pre-crises levels not before the year 2023.

On the other hand, this pandemic also provides an opportunity for us to revisit our structural problems in tourism sector.

These are; limited investments, poor infrastructure, insufficient institutional and human capacity, low service quality and low per capita tourist spending.

There are several tools to improve tourism entrepreneurship within the OIC.

First and foremost, tourism entrepreneurs need to be supported.

This can be achieved through low-cost credits and micro-funding opportunities, land allocations, tax holidays and other financial supports.

We can also positively discriminate entrepreneurship that enhances diversity and innovation in tourism activities.

This would add value to local quality of life, contribute to destination development, promotion of local culture and assist the new innovative industries.

Local entrepreneurs can also be encouraged to accumulate knowledge, experience, and receive certification in tourism industry.

This would minimize leakages and franchising and management fees paid to non-OIC brands.

Facilitating investments and easing formalities for intra-OIC tourism investments and brands are also relevant to this end.

Within this framework, we have to find ways and means of adopting ourselves to the new normal.
We need to explore the possibility of having “safe travel corridors” and “travel bubbles” among OIC countries.

Within this context, I would like to highlight once more Turkey’s “Safe Tourism Certification Programme”.

Distinguished Participants,

Palestinian cause constitutes the basis of the establishment of the Organization of Islamic Cooperation.

Palestine and Al-Quds Al-Sharif are always at the core of our hearts. Likewise, they should be also at the core of our actions.

Unfortunately, the Israeli occupation continues to further isolate the Palestinian people.

We must adopt a common stance on the Palestine issue.

We should therefore urgently take the necessary steps that our Palestinian brothers and the Islamic Ummah have been expecting.

Within this context, I sincerely appreciate the newly initiated COMCEC Al-Quds Program.

I hope that the program would contribute to improving the socio-economic conditions there.

I hope this program would promote Al-Quds Al Sharif as a competitive tourism destination.

Esteemed Delegates,

The total trade volume of Islamic countries in 2019 approached 4 trillion USD.

That shows an increase in the volume of foreign trade over the years.

But, periodic fluctuations and decreases in export revenues are also experienced due to the oil prices.

Increasing volume of trade and deepening our trade cooperation are indeed effective remedies for global economic uncertainties.

As highlighted by His Excellency President ERDOĞAN yesterday, we have to transform our trade structure from mainly raw or semi manufactured goods to value-added production and trade.
The more we have strong economic ties and enhanced trade with each other, the stronger we can resist to external shocks and challenges.

I sincerely believe that the Trade Preferential System Among OIC Member Countries (TPS-OIC) is one of the most important instruments for increasing intra-OIC trade.

As we all know, TPS-OIC is currently at its implementation stage as 13 members have assumed their commitments regarding ratification of the Agreements and updated their concession lists.

In order to make progress in this field and to discuss the issues regarding the implementation of the TPS-OIC, we held a Virtual Consultative Meeting on 27 October 2020 organized by COMCEC Coordination Office and ICDT.

We hope that the Trade Negotiating Committee can also convene at the soonest in order to launch the implementation of TPS-OIC by 1 July 2021.

I believe that once TPS-OIC is implemented and operational, other brotherly countries of the OIC will also begin joining the system.

Dear Participants,

Another important project of COMCEC is the OIC Arbitration Center which is expected to provide trustworthy, quick and efficient settlement of trade and investment disputes.

Arbitration as the main dispute settlement procedure in international trade is one of the main pillars on which international trade is based on.

The Center will also contribute to the enhancement of the cross-border business relations between the member countries.

After a three-years period, which is relatively a short span of time, we have completed the legal basis of this important Center.

The Host Country Agreement signed during the 35th COMCEC Ministerial Meeting was ratified by the Turkish Grand National Assembly on January 18th, 2020.

Now, only some administrative preparations remain for the operationalization of this Center.

Dear Sisters and Brothers,

The OIC Gold Exchange project is one of the OIC related significant project which we would like to achieve soon.
We need to develop the infrastructure to make gold trading possible among OIC Exchanges.

This will pave the way for development of new products and services based on gold as well as other areas of cooperation.

**Honorable Ministers,**

I would also like to briefly touch upon the activities carried out within the scope of the COMCEC Working Groups.

As we all well aware, policies that are formulated without sufficient elaboration rarely succeed.

In this respect, the working methodology of the COMCEC Working Groups aims to reveal the current situation and best practices in each sectoral theme.

Then it offers pertinent policy recommendations. For that very reason, the policy recommendations of our Working Groups provide us a unique opportunity to overcome the challenges.

The COMCEC Project Funding mechanism proved to be a useful instrument for implementing the policy recommendations.

We are glad to see the growing interest of the Member Countries in this important mechanism.

**Dear Sisters and Brothers,**

Before concluding, I should like to touch upon Islamophobia which has become the most common manifestation of racism and xenophobia today.

In various parts of the world, Muslims are subjected to hate speech. They are still being attacked, insulted, despised for their beliefs and even murdered every day.

As the Islamic world, it is essential and incumbent on us that we continue to draw attention to this crucial issue.

We must wake up to these dangerous rhetoric and actions.

We should send a clear message to the West regarding our red lines. We can then make other countries realize the severity of the problem.
Esteemed Delegates,

I hope that our discussions, deliberations and resolutions will bear fruitful results and deepen our cooperation as the Islamic Ummah.

We wish that our jointly adopted policies and projects should not remain on paper, but put into action for the benefit of the Islamic community.

As the Republic of Turkey, with the help of our National Coordination Committee, we will follow-up the implementation of the resolutions closely.

I will also personally follow-up the implementation of our precious resolutions on our part.

Before I conclude, I would like to thank His Excellency President ERDOĞAN, Chairperson of COMCEC, for his exemplary leadership and his continued support to the whole Islamic World.

I would also like to thank all member country delegations, the General Secretariat of the Organization for Islamic Cooperation, the Institutions of the Organization for Islamic Cooperation and other international organizations for their active and valuable contributions.

My special appreciation goes to the COMCEC Coordination Office, our translators and interpreters, and all staff taking part in the organization of our meeting for their valuable efforts towards successful conduct of our meeting.

Thank you very much.

Esselamu Alaikum wa Rahmetullahi wa Barakatuhu.
POLICY RECOMMENDATIONS
OF THE WORKING GROUP MEETINGS

1- HANDBOOK TITLED "GUIDELINES FOR ESTABLISHING EFFECTIVE NATIONAL TRADE FACILITATION BODIES IN THE OIC COUNTRIES" is available on the COMCEC website "http://ebook.comcec.org/".
2- THE POLICY RECOMMENDATIONS HIGHLIGHTED BY 15TH MEETING OF THE COMCEC TRANSPORT AND COMMUNICATIONS WORKING GROUP

The COMCEC Transport and Communications Working Group (TCWG) successfully held its 15th Meeting on July 7th, 2020, in a virtual-only format, with the theme of “Pricing of Transport Infrastructure in the OIC Member Countries”. During the Meeting, TCWG made deliberations on the policy recommendations related to the pricing of transport infrastructure. The policy recommendations were formulated by taking into consideration the research report titled “Pricing of Transport Infrastructure in the OIC Member Countries” and the responses of the Member States to the policy questions sent by the COMCEC Coordination Office. The policy recommendations are as followings:

Policy Recommendation 1: Developing contemporary transport infrastructure pricing policies and making use of implementation instruments such as PPPs, where possible, and public transport operations for a well-functioning transport system.

Rationale:
An enabling legal framework accompanied by an integrated transport policy is of particular importance for the success of transport infrastructure pricing systems. This would also facilitate the effective participation of the private sector in the development of transport infrastructure. The contemporary transport policies envisage an enabling legal framework that explicitly highlights the government’s commitments and the mechanisms for risk transfer between public and private stakeholders by streamlining all the different pricing implementations and convert them into a single transport infrastructure pricing act. In this vein, contemporary transport policies encourage the participation of the private sector in transport infrastructure projects. The success of transport infrastructure pricing schemes depends largely upon the implications, externalities, and people’s perception of transport infrastructure pricing schemes. In this framework, the contemporary transport policies attach particular importance to the social and economic conditions of the users.
**Policy Recommendation II:** Assigning an autonomous operator (entity/institution/body) for the effective collection of charges and allocation of funds arising from transport infrastructure pricing services.

**Rationale:**
Transport infrastructure pricing is a multidimensional issue involving public, private, and civil society. Within this respect, several institutions and organizations have varying roles in the formation of transport infrastructure pricing and charging policy, regulation, planning, implementation, monitoring, and evaluation. The coordination among the relevant institutions and stakeholders is of crucial importance. However, considering the complexity of management of the pricing of transport infrastructure, effective coordination among the public and private stakeholders is an important challenge to be addressed. The roles and responsibilities of the relevant stakeholders may not always be explicit. In this respect, for improved governance, the roles of regulators and operators can be separated, and autonomous commercialized institutions may provide the services demanded by stakeholders and users with greater efficiency. Therefore, the assignment of autonomous entities that would provide an effective collection of charges and the allocation of funds arising from transport infrastructure pricing services is of particular importance.

**Policy Recommendation III:** Utilizing transport infrastructure pricing tools (tolls, levies, vehicle tax, fuel tax, mileage tax, etc.) to effectively manage transport demand as well as to raise funds for transport infrastructure development.

**Rationale:**
An efficient and effective transport system is vital for the socio-economic functioning of any society. Transport networks, including road, rail, and air networks, have expanded consistently especially in developing countries in line with the growing demand. As the demand for transport infrastructure has increased considerably over the years, governments have initiated some mechanisms to diversify funding sources and to address this growing demand. The principle of cost recovery from transport users, known as transport infrastructure pricing, is one of the widely used mechanisms to source public finance to increase infrastructure capacity and recovery of costs, to effectively manage the demands for transportation services, to charge transport sector externalities including greenhouse gas emissions. Tolls, levies, vehicle tax, fuel tax, mileage tax, and vignettes are some of the widely used tools in transport infrastructure pricing systems. While developing countries use these tools mainly to provide new infrastructure and improve transport infrastructure performance, developed countries primarily make use of these tools for managing traffic demand.
**Policy Recommendation IV**: Utilizing contemporary collection (i.e. automated electronic tolls, on-board-units, and Global Navigation Satellite System) and enforcement systems for ensuring an effective transport infrastructure pricing.

**Rationale:**
The applied method and used technology are extremely vital for the better management of the pricing of transport infrastructure. An effective and efficient toll collection and enforcement system can leverage the abilities of the whole infrastructure pricing system. Collection can be done by employees, automatic machines, or a combination of both. Toll plazas and electronic tolls are two basic toll collection systems. Toll plazas consist of a series of toll gates, where each gate only opens once the driver pays the toll by cash, bank cards, vouchers, or others. On the other hand, electronic tolls allow toll payment without requiring vehicles to stop. Vehicles are required to carry an authorized on-board unit (OBU), electronic tag or transponder. Compared to toll plazas, electronic tolls do not require toll gates, which minimizes construction costs and this system can be implemented in high-density road networks. Some countries have a hybrid system where conventional toll plazas coexist with electronic tolling systems.

**Instruments to Realize the Policy Advice:**
**COMCEC Transport and Communications Working Group**: In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

**COMCEC Project Funding**: Under the COMCEC Project Funding, the COMCEC Coordination Office calls for projects each year. With the COMCEC Project Funding, the Member Countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For the above-mentioned policy areas, the Member Countries can utilize the COMCEC Project Funding and the COMCEC Coordination Office may finance the successful projects in this regard. These projects may include organizing seminars, training programs, study visits, exchange of experts, workshops and preparing analytical studies, needs assessments, and training materials/documents.
3- POLICY RECOMMENDATIONS OF THE 15TH MEETING OF
THE COMCEC TOURISM WORKING GROUP

The COMCEC Tourism Working Group (TWG) has successfully held its 15th Meeting on September 24th-25th, 2020 in Ankara, Turkey with the theme of “Developing Medical Tourism in the OIC Member Countries.” During the Meeting, Tourism Working Group, made deliberations on medical tourism in the OIC Member Countries. Accordingly, the participants has come up with some policy recommendations.

Policy Advice 1. Encouraging marketing and branding activities in order to boost the image of the destination country with a view to attract international patients.

Rationale:

Countries attract international patients with their capacity and capabilities in health provision. However, they increase their chance to be preferred as a destination country as much as their country image allows this position. In this sense, security and trustworthiness step forward as factors which influence country’s brand image. When country image is problematic as regards economic or other circumstances, it becomes important to obtain an improved image in the first place. In order to convince international communities towards a shift in their perception about the country, rebranding strategies can be introduced. Rebranding helps spread the message that the destination country is safe and trustworthy for all activities undertaken within its borders, including healthcare provision as well. For instance, integration of insurance systems is defined as an effective model for medical tourism activities regarding ease and secure payment procedures available in different countries. Medical tourism is not solely about health provision and medical services. Instead, second pillar of medical tourism consists of the tourism component. As a supporting factor to medical tourism, other tourism facilities (i.e. historical sites, cultural heritage etc.) can be promoted.

Policy advice 2. Using online platforms for customized marketing strategies towards target groups

Rationale:

Online platforms, especially popular social media channels such as YouTube, Facebook, Instagram, Twitter, Pinterest, etc. provide virtual environments to express opinions and preferences. Although these platforms are not particularly designed for marketing, advertisements are usually permitted. Data collection from the registered accounts enables algorithms to suggest personalized advertisements in parallel to the users’ activities. From the medical tourism perspective, such platforms can be used in order to attain the target groups.
Based on their personal choices, matching treatments can be displayed on the channels they frequently use. Such advertisement strategy on medical products and services is especially applicable for cosmetic procedures towards those who are interested in wellbeing and beauty products. As for the OIC member countries, such an interactive tool can be used in order to understand the needs of target population. This would allow to develop segmentation strategy with the objective to respond in the most effective way to the needs of target population within the segment.

**Policy advice 3. Promoting development/implementation of exchange programs among the OIC Member Countries for medical personnel in order to boost knowledge and experience sharing**

**Rationale:**

In response to the medical needs of individuals and societies, health sciences discipline work on development of new techniques and tools. The way to treat diseases may vary across countries. Countries develop their own unique approach in relation to their level of health infrastructure in terms of medical education and R&D capacity. From this point of view, knowledge and experience sharing becomes important for medical personnel in order to adopt different approaches into their practices. The communication between medical personnel as regards the advancements in the healthcare sector facilitates dissemination of best practices in the field. Such a blend of knowledge between healthcare professionals can create a larger impact. It has, in fact, the potential to boost the industry as well. Therefore, exchange programs can nurture the healthcare industry at healthcare personnel and healthcare provision levels among the OIC member countries.

**Policy advice 4. Encouraging bilateral or regional/multilateral arrangements (such as patient exchange programs, pre-diagnosis services, alliances between healthcare providers and streamlining health insurance schemes etc.) between public/private stakeholders including insurances and hospitals in order to sustain the exchange of patients.**

**Rationale:**

Bilateral, regional and multilateral arrangements can increase health mobility between the signing parties and serve as a stimulating factor to boost trade relations. In this respect, partner countries may benefit from the increase in health mobility through filling the gap in demand towards medical treatment. This may also enable the other side of the arrangement to provide healthcare services and meet its potential in medical tourism. These arrangements may take multiple forms such as patient exchange programs, pre-diagnosis services, alliances between healthcare providers and streamlining health
insurance schemes. For instance, opening a pre-diagnosis center in a partner country would give the opportunity to the supplier country to display its medical services. On the other side, the partner country would benefit from medical knowledge and experience of the visiting medical staff coming from the partner country. As for protocols signed between healthcare providers and health insurances, it is possible to affirm that both sides would benefit from medical tourism schemes.

Policy Advice 5. Establishing a database on health tourism for the use of OIC member countries for further cooperation in terms of patient-treatment exchange and capacity building in healthcare provision

Rationale:

Data collection in medical tourism constitutes a big problem. Countries experience challenges in finding the appropriate information as regards activities taken place in medical tourism industry. The lack of data collection methodology and database creates obstacles in terms of marketing as well.

Both side of the medical tourism actors (suppliers and demanders) can take data-based concrete actions for future collaborations. For instance, supplier countries can provide data on their medical services that are integrated in the medical tourism whereas demanders can list their priorities in medical treatments. Such a database can open a platform for collaboration not only in terms of patient-treatment exchange but also in terms of capacity building in healthcare provision as well. OIC level data sharing in medical tourism will facilitate both supply and demand side among the region.

Instruments to Realize the Policy Advices:

– COMCEC Tourism Working Group: In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

– COMCEC Project Funding: Under the COMCEC Project Funding, the COMCEC Coordination Office calls for projects each year. With the COMCEC Project Funding, the Member Countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For the above-mentioned policy areas, the Member Countries can utilize the COMCEC Project Funding and the COMCEC Coordination Office may finance the successful projects in this regard. These projects may include organizing seminars, training programs, study visits, exchange of experts, workshops and preparing analytical studies, needs assessments and training materials/documents.
OIC/COMCEC Private Sector Tourism Forum: In its meetings, the OIC/COMCEC Private Sector Tourism Forum may elaborate on the above-mentioned policy areas and the sub-areas from the private sector perspective.
4- POLICY RECOMMENDATIONS HIGHLIGHTED BY THE 15TH MEETING OF THE COMCEC AGRICULTURE WORKING GROUP

A policy debate session was held during the 15th Meeting of the COMCEC Agriculture Working Group. The Working Group came up with some concrete policy recommendations for enhancing good governance practices for ensuring food security and nutrition in the Member Countries. The policy recommendations given below have been identified in light of the main findings of the research report titled "Good Governance for Ensuring Food Security and Nutrition in the OIC Member Countries" and the responses from the Member Countries to Policy Questions conveyed by the COMCEC Coordination Office.

Policy Recommendation I: Developing a comprehensive national food security and nutrition strategy and/or strengthening the existing food security policies and strategies to extend their reach and inclusiveness so that everyone can reap the benefits, including the poorest and the most vulnerable to achieve food security and nutrition for all.

Rationale:
An enabling legal framework accompanied by a comprehensive food security and nutrition policy is of particular importance for the success of the food security governance. A comprehensive food security and nutrition strategy could be developed as the first step of planning for good food security governance. Under the shadow of COVID-19; the said strategy could specifically re-define the vision, goals and priorities of the country on food security governance in line with the current and future food security and nutrition trends of the country, and guide complementary and cross-cutting strategies, laws, and programs, as well as activities for achievement of objectives. In this regard, the member countries may utilize the experiences and facilities provided by the OIC Institutions (e.g. COMCEC, IOFS, SESRIC, SMIIC, IsDB) as well as the international organizations (e.g. UNFAO).

Policy Recommendation II: Establishing a high level national coordination mechanism (i.e. an inter-ministerial or presidential council) for ensuring a healthy and sustainable multi-stakeholder dialogue for the effective coordination of all governmental and non-governmental stakeholders in the processes of policy formulation, implementation, and monitoring; and endowing it with significant execution power and sufficient human and financial resources.
**Rationale:**

For successful food security and nutrition policies, governance and coordination mechanisms need to be drastically upgraded in all areas from policy formulation to implementation and monitoring. Effective coordination and coherence mechanisms require an inclusive and participatory process in which all segments of the population, especially the most vulnerable, have their needs and rights properly represented.

Different stakeholders have their own objectives, policy preferences, and functions, and this creates an inherent fragmentation in the sphere of governance. The OIC member countries may thus benefit from establishing a high level national coordination mechanism inter-ministerial or presidential council), endowed with significant executive power. Member countries may benefit from mandating the operations, meetings, responsibilities, accountability criteria, and stakeholder participation mechanisms of their national coordination mechanisms. Moreover, they are recommended to ensure that the national coordination mechanism has sufficient human and financial resources.

**Policy Recommendation III: Improving the coordination and coherence of policy actions on food security and nutrition in turbulent times (e.g. COVID-19 pandemic) at all levels ranging from sub-national to national; national to bilateral or multilateral; sub-regional to regional, and finally, from OIC-level to global level.**

**Rationale:**

The COVID-19 pandemic and the associated economic downturn are expected to worsen food insecurity and malnutrition situation in many countries mainly through (i) the declining availability of food (due to contraction of food production and trade) and (ii) the access to food (due to employment and income losses). Recently published figures indicate that, by the end of 2020, 130 million people in low and middle income countries will be added to those already suffering from acute hunger before the pandemic started. Roughly half of the OIC Member Countries are among the countries that face the highest risks due to the COVID-19 pandemic. Minimizing the risks associated with the pandemic necessitates good governance practices especially with respect to the coordination of policy actions at national and sub-national levels and bilateral, OIC-level and finally global levels.

**Policy Recommendation IV: Designing a detailed and transparent implementation plan for the national and sub-national tasks and equipping the fieldwork personnel with relevant know-how and allocating sufficient financial resources to each and every step of the implementation process.**
**Rationale:**

Adopted policies and programs that are not supported by detailed and transparent implementation plans may end up being partially implemented or not implemented as a result of departures of critical post-holders due to new appointments and other bureaucratic obstacles. This is more than highly possible in this new era where COVID-19’s negative effects are felt considerably. Therefore, the top challenge regarding implementation is to design the policies and programs with an explicit implementation plan for the national and sub-national tasks. One of the main governance challenges regarding implementation is associated with the lack of sufficient human and financial resources. Therefore, the OIC member countries may focus on mechanisms to train the field-work personnel so as to equip them with relevant know-how, and to allocate sufficient financial resources to each and every step of the implementation process.

**Policy Recommendation V: Establishing an online platform/food information systems (e.g. vulnerability atlas, food security fora) that ideally transmits real-time information on monitoring food security and nutrition governance with a view to generating credible data and statistics and formulating evidence-based policies.**

**Rationale:**

COVID-19 pandemic has shown once more the importance of the monitoring of acute food insecurity through the food information systems. Limited availability of timely, reliable and consistent data on food security and nutrition hampers evidence-based decision making by both public and private sector actors in the Member Countries as well as the international organizations. Besides utilizing the existing instruments such as OIC Statistical Commission (OIC-StatCom) more effectively, new projects that are inter and intra related with other harshly affected sectors (tourism, trade, finance etc.) from COVID-19 need to be designed and conducted to generate credible data and statistics, to strengthen the Member Countries’ capacities to analyze them, and support the development of policies, investment and action plans based on this evidence all across the OIC.

**Policy Recommendation VI: Promoting capacity building and knowledge/experience sharing among the OIC Member Countries in the four levels of good governance of food security and nutrition (i.e.**

(i) Policy and Legal Framework (ii) Coordination and Coherence (iii) Implementation, and (iv) Information-Monitoring-Evaluation.)
**Rationale:**

There are lessons that member countries can learn from the experiences of fellow members within the OIC. When effective sharing and capacity building mechanisms are established, successful outcomes of well- tested food security governance policies and practices in one country can allow others to adopt those without making the costly mistakes that the initiating country may have made during the process of fine-tuning new initiatives, saving valuable resources. Hence, regular or occasional gatherings of policy makers as well as practitioners from member countries to discuss common problems related to food security governance, and creation of staff exchange and training programs can be encouraged. The growing experience of all countries with on-line gatherings and meetings during the pandemic presents itself as an opportunity to make such events increasingly feasible. Also, the countries may seek technical assistance from OIC institutions and/or seek project-based funding from the OIC and other international bodies.

**Instruments to Realize the Policy Recommendations:**

**COMCEC Agriculture Working Group:** In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

**COMCEC Project Funding:** Under the COMCEC Project Funding, the COMCEC Coordination Office calls for projects each year. With the COMCEC Project Funding, the member countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For the above-mentioned policy areas, the member countries can utilize the COMCEC Project Funding and the COMCEC Coordination Office may finance the successful projects in this regard. These projects may include organization of seminars, training programs, study visits, exchange of experts, workshops and preparing of analytical studies, needs assessments and training materials/documents, etc.

**Islamic Organization for Food Security (IOFS):** IOFS, as a specialized institution of the OIC dedicated to promoting food security and nutrition, may contribute to policy formulation in the OIC member countries and support good food security governance within the OIC.

**SESRIC:** Member Countries may utilize the Capacity Building Programs of SESRIC as well as OIC Statistical Commission in the areas related to food security and nutrition.
**IDB Group:** The facilities of the IDB Group, particularly the IsDB Agriculture and Rural Development Policy Implementation, may be utilized by the Member Countries to achieve good governance of food security and nutrition.

**SMIIC:** The Technical Committees of the SMIIC can be utilized.
5- THE POLICY RECOMMENDATIONS OF THE 15TH MEETING OF THE POVERTY ALLEVIATION WORKING GROUP

The COMCEC Poverty Alleviation Working Group (PAWG) has successfully held its 15th Meeting on September 29th, 2020, in a virtual-only format, with the theme of “Urban Poverty in the OIC Member Countries.”

During the Meeting, PAWG made deliberations on reducing urban poverty in the OIC Member Countries. Room Document, prepared in accordance with the main findings of the research report conducted specifically for the 15th Meeting of PAWG and the answers of the Member Countries to the policy questions were the main input for the discussions. During the Meeting, the participants agreed on the policy recommendations included in the Room Document. The existing document includes these policy recommendations highlighted during the Meeting.

**Policy Recommendation 1:** Developing comprehensive and effective urban planning strategies that particularly focus on better management of slums to prevent uncontrolled growth of existing slums and formation of new ones, and improving the access of slum dwellers to basic services such as education and health services through strategic investments.

**Rationale:**

Slums are the main poverty hubs in urban areas. Developing more effective urban planning strategies that particularly focus on better management of slums (through dissolving/depopulating them and preventing formation of new ones) could be a first step towards eradicating urban poverty. There are numerous good examples of such urban planning strategies in the Islamic world (e.g., Housing Development Administration (TOKİ) in Turkey and Purbachal New Town project in Bangladesh). Improving the access of slum dwellers to education and health services through strategic investments can help break poverty cycles. Moreover, in developing as well as implementing these strategies, it is crucial to utilize the relevant ICT tools and techniques more effectively to monitor slums and accurately identify the urban poor.

**Policy Recommendation 2: Designing effective local labor market policies that would help tackling the informality problem and create more and better jobs**

**Rationale:**

In the OIC member countries, roughly one in three jobs is formed in the informal labor market. Informal workers are not protected by labor legislation or a social security system. Families residing in slums are mostly employed in informal sector, which suggests that informal employment is closely linked with more intensive urban poverty. To tackle the informality problem, it is crucial to develop local labor market policies, which gradually reduce the share of informal employment over time and create more and decent jobs. These labor market policies include, among others, training and skill acquisition, improved flexibility of formal work, stricter enforcement, differential tax schemes targeting youth, women or other disadvantaged groups, supporting job creation and social protection.

**Policy Recommendation 3: Activating the Islamic Social Finance Tools and systematically integrating them into the general urban poverty policy toolbox**

**Rationale:**

The existing evidence suggests that the Islamic social finance system is a viable complementary tool that can be used in combination with traditional poverty reduction policies to eradicate urban poverty in the OIC countries. For example, organizing an effective distribution of individual-level compulsory transfers, charity-based recommended transfers, and other voluntary transfers (both pecuniary and non-pecuniary) would greatly improve welfare in the society and reduce poverty in urban settings. Activating the Islamic social finance tools and systematically integrate them into the general urban poverty reduction policy toolbox within a well-crafted “policy-mix” (e.g. the zakat-based infrastructure projects implemented in Indonesia); and utilizing the related ICT tools (such as blockchain technologies, FINTECH systems, cashless smart cards, geographical information systems) that facilitate a more effective use of the Islamic social finance tools (e.g., the Social Family Card in Egypt; cashless shopping cards distributed to refugees living in camps in Turkey and Jordan) is of crucial importance for reducing urban poverty. The OIC Member Countries provide numerous good practices on Islamic social finance tools as a source of inspiration for their fellows. Through experience sharing and capacity building programs, this valuable experience could be shared among the member countries.
**Policy Recommendation 4: Improving urban governance capacity and strengthening resilience to shocks (e.g. COVID-19 pandemic)**

**Rationale:**

The COVID-19 pandemic and the associated economic downturn are expected to worsen the urban poverty in the Member Countries. Although COVID-19 is a global shock, its adverse consequences are more severely felt by the poor, who are more likely to live in overcrowded neighborhoods and slums. Therefore, improving urban governance capacity by establishing a viable long-term national strategy aiming to effectively tackle urban poverty, improving resilience to unexpected events such as COVID-19 pandemic, natural disasters, large population movements, and health shocks; strengthening policy coordination between national and local authorities, enhancing legal and institutional capacity, and getting connected to the international policy network in a more effective way are recommended. Minimizing the risks associated with the pandemic necessitates good governance practices especially with respect to the coordination of policy actions at national and sub-national levels and bilateral, OIC-level and finally global levels.

**Policy Recommendation 5: Conceptualizing urban poverty and developing/improving data collection and measurement practices to achieve evidence-based policy making**

**Rationale:**

Urban poverty is highly multidimensional, and those multiple dimensions need to be systematically internalized to improve the understanding of the main policy issues. Conceptualizing and defining urban poverty within a multidimensional and region-specific context is also very important since those concepts and definitions crucially affect humanitarian policy and the nature of other basic services provided such as health, water, sanitation, sewage, etc. Without a well-structured conceptualization, national and local authorities will be ill-equipped to address the key urban poverty challenges. Moreover, improving data collection practices and developing new instruments to enhance measurement of urban poverty is of particular importance for evidence-based policy making. In this regard, it is recommended to utilize the relevant ICT tools and techniques more effectively to conceptualize, collect data and monitor slums and accurately identify the urban poor.
**Instrumants to Realize the Policy Recommendations:**

**COMCEC Poverty Alleviation Working Group:** In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

**COMCEC Project Funding:** Under the COMCEC Project Funding, the COMCEC Coordination Office issues calls for project proposals each year. With the COMCEC Project Funding, the member countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For realizing above-mentioned policy recommendations, the member countries can utilize the COMCEC Project Funding facility. These projects may include organization of seminars, training programs, study visits, exchange of experts, workshops and preparation of analytical studies, needs assessments and training materials/documents, etc.

**SESRIC:** Member Countries may utilize the Capacity Building Programs of SESRIC to realize the above-mentioned policy recommendations.
6. **THE POLICY RECOMMENDATIONS OF THE 14TH MEETING OF THE FINANCIAL COOPERATION WORKING GROUP**

The COMCEC Financial Working Group (FCWG) has successfully held its 14th Meeting on September 15th, 2020 in virtual-only format with the theme of “Improving the Shariah Governance Framework in Islamic Finance”. During the Meeting, FCWG made deliberations on improving shariah governance framework in Islamic finance sector in the OIC Member Countries. Room Document, prepared in accordance with the main findings of the analytical study conducted for the 14th Meeting of FCWG and the answers of the Member Countries to the policy questions, was the main input for the discussions. Accordingly, the participants have come up with some policy recommendations.

**Policy Advice 1: Developing a comprehensive legal and regulatory framework for the Shariah Governance processes and arrangements to ensure that all the operations and business activities in Islamic Finance are in accordance with Shariah.**

**Rationale:**
Islamic banking and financial market laws should contain the definitions of all currently known and approved Islamic finance products and services as well as instruments. The concerned law should stipulate the general rule of prohibiting trade in pure risk and debt. The law may also authorize the regulator to add new products once they are approved. Furthermore, a special standard for the listed companies and Islamic financial instruments should be attached to the law with a stipulation of an annual review. Such standards would set the required conditions for ensuring Shariah compliance. Besides, a handbook on Islamic finance products and instruments should be issued by the regulators to support and facilitate the implementation of the respective law.

**Policy Advice 2: Encouraging the establishment of national Shariah Supervisory Boards (SSBs) supervising the institutional SSBs.**

**Rationale:**
National Shariah Supervisory Boards (SSBs) have various important functions. They can play a very significant role in resolving the disputes between Islamic Financial Institutions (IFIs) and customers. Furthermore, approving new products, supervising IFIs on proper income purifications, reviewing yearly accounting of profit and zakat calculations and their distribution, assessing and regularly reporting Shariah non-compliance risks to shareholders and investment account holders are among the other major functions of National SSBs. The National SSBs are very instrumental in securing the interests of all stakeholders, not just shareholders.
Policy Advice 3: Developing guidelines for ensuring/facilitating the active involvement of Investment Account Holders (IAHs) in IFIs’ management in accordance with their contribution to the mudaraba pool.

Rationale:

Comprehensive guidelines about Shariah Governance Framework can be developed to enable all stakeholders (i.e. customers, management, shareholders, supervisory authorities) perform their roles in accomplishing the Shariah Governance objectives, and to promote soundness and stability of IFIs. In this regard, the following mechanisms, among others, might be taken into consideration during the preparation of the concerned guidelines:

- Voting in the general assembly and board of directors should be distributed between shareholders and IAHs in proportion to their resources,
- The resources provided by IAHs might be measured as of the beginning of the financial year,
- IAHs might be allowed to assign their representatives in the general assembly of IFIs,
- BoD seats might be assigned to the IAHs with the largest accounts, in a proportion of their resources.

Policy Advice 4: Encouraging talent development through training and professional certification programs and increasing the awareness of stakeholders about Shariah Governance.

Rationale:

In many cases, there might be a need for improving the qualifications of SSB’s members and a shortage of qualified Shariah experts. The practice of assigning SSBs membership exclusively from among Shariah specialists without identifying the necessary qualifications such as academic degree, research and teaching experience etc. is a major challenge. In this respect, a set of criteria may be identified for the appointment of the SSB members. In addition, training and professional certification programs can be conducted for talent development in this crucial area.

Policy Advice 5: Promoting the integration of Islamic Finance sector into whole economy with a view to making monetary policy more inclusive.

Rationale:

In order to integrate the Islamic finance sector into the macro- economy and make monetary policy more inclusive, monetary authorities are advised to do the following:

- To issue Central Deposit Certificates (CDC) in proportion to the ratio of total Islamic finance assets to the total financial assets in the whole economy, against their cash value which would be placed as Central Deposits in IFIs. Accordingly, the
monetary authority may wish to reduce money supply by the same amount or any amount that would make such issue non-inflationary, by increasing the legal reserve ratio.  
- The monetary authority would set the instructions to control the investment of central deposits.
- The monetary authority can issue more CDC's and make them available for sale to the public, including IFIs. Their profits would be added to the Central Deposits in IFIs.
- The monetary authority may allow trading of CDC’s in money market.
- The monetary authority can change the rate of growth of money through: (1) Adding to or subtracting from its Central Deposits balances with IFIs, (2) using open market operations in CDC's to adjust the rate of growth of the money supply.

**Instruments to Realize the Policy Advices:**

**COMCEC Financial Cooperation Working Group:** In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

**COMCEC Project Funding:** Under the COMCEC Project Funding, the COMCEC Coordination Office issues calls for project proposals each year. With the COMCEC Project Funding, the member countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For realising above-mentioned policy recommendations, the member countries can utilize the COMCEC Project Funding facility. These projects may include the organization of seminars, training programs, study visits, exchange of experts, workshops and preparation of analytical studies, needs assessments and training materials/documents, etc.
